

P S VADHIYA

CONSTRUCTION

P S Vadhiya Construction is a trusted and rapidly expanding company specializing in comprehensive civil and industrial infrastructure solutions. With a strong commitment to quality, safety, and timely execution, we deliver projects that uphold the highest engineering standards. Our team combines technical expertise with innovative construction practices to provide reliable, sustainable, and cost-effective outcomes for clients across diverse sectors.

Company's Mission & Vision & values

01 Our Mission

- To establish a strong PAN India presence by delivering excellence in construction, industrial, and infrastructure projects. We are committed to offering innovative and cost-effective solutions while maintaining the highest standards of quality, safety, and timely execution. Our mission is to contribute meaningfully to the nation's development through reliable and sustainable infrastructure.

02 Our Vision

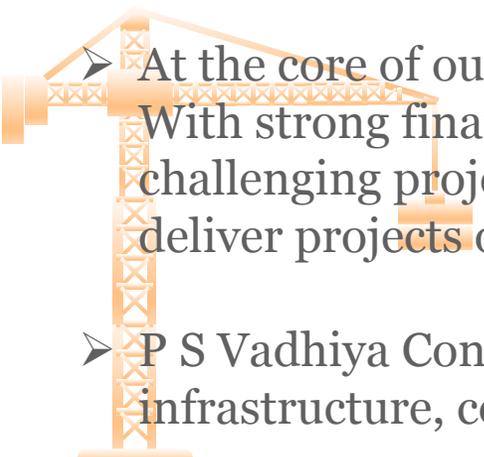

- To set new benchmarks in the construction and infrastructure sector by fostering a work culture built on pragmatism, teamwork, trust, and accountability. Our vision is to become a nationally respected name in the industry, known for engineering excellence, ethical practices, and long-term client satisfaction.

03 Our Values

- Our values are the foundation of everything we do. Pragmatism, teamwork, trust, and accountability are deeply ingrained in our organizational culture. These values guide our actions, shape our approach to projects, and drive our commitment to delivering results that exceed expectations. With these principles at our core, we have consistently earned the trust and confidence of our clients.

About us Over View

- P S Vadhiya Construction is a reputed and rapidly growing construction company based in South Gujarat, established over a decade ago. With a solid foundation in civil and industrial construction, we have earned a reputation for excellence through our dedication to quality, safety, and timely project delivery.
- In a relatively short span, we have successfully carved out a space for ourselves in the field of infrastructure development. Our approach is rooted in offering innovative, affordable, and efficient construction solutions that align with global standards—without ever compromising on quality or safety. Our ability to combine vision with practical execution has positioned us as a preferred partner for clients seeking dependable and high-performance construction services.
- Our operations are widely spread across Pan India, where we undertake a diverse range of civil and industrial projects. We have a proven track record of working in complex industrial environments, showcasing our capacity to handle demanding assignments with precision and professionalism.
- At the core of our success is a knowledgeable and technically proficient team of engineers and professionals. With strong financial backing and a commitment to engineering excellence, we take pride in executing challenging projects of all sizes. Our team is driven by a common goal—to meet and exceed client expectations, deliver projects on time, and ensure the highest levels of safety and satisfaction.
- P S Vadhiya Construction is not just a service provider—we are a growth partner in your vision for infrastructure, committed to building the future with integrity, innovation, and impact.

Manpower & Employee Structure

- The company is powered by a strong and efficient workforce comprising over 70 highly trained and experienced technical professionals.
- This core team is supported by more than 500 skilled, semi-skilled, and unskilled laborers, enabling us to execute projects of varying scale and complexity.
- In addition, the company is backed by a reliable network of associate specialists, ensuring availability of specialized expertise whenever required.
- This well-structured manpower base allows us to maintain high standards of quality, safety, and timely project execution.

Machinery & Storage Equipment Details

P S Vadhiya Construction has a wide range of construction machinery and storage equipment. We operate a large warehouse facility for safe and efficient material storage. Additionally, we are connected with multiple trusted vendors, enabling us to provide a broad range of machinery on a rental basis to meet diverse project requirements.

Organization Chart

Quality Policy

- P S Vadhiya Construction, we are committed to fulfilling our responsibilities to clients by delivering projects that are on-time, on-quality, and aligned with their expectations. We continuously seek and implement improvements to enhance customer satisfaction and project outcomes.
- Our commitment includes meeting all statutory, regulatory, and contractual requirements while ensuring a strong focus on safety, innovation, and excellence in execution. We value client feedback as a critical input for improvement and actively integrate it to strengthen our quality management practices. Through regular management reviews, internal audits, and defined quality objectives, we monitor and enhance the effectiveness of our processes.
- Our Quality Management System is structured to reflect the principles of ISO 9001:2015, ensuring that every team member is empowered to deliver quality right the first time and every time.

HSE Policy

- P S Vadhiya Construction, Health, Safety, and Environment (HSE) are core to our operations and integral to the successful execution of every project. We are committed to safeguarding the health and well-being of our employees, contractors, and stakeholders by fostering a safe and secure work environment across all sites. We adhere strictly to all relevant legal, regulatory, and industry standards while proactively identifying and mitigating risks to prevent incidents and injuries.
- Environmental responsibility is equally vital—we strive to minimize the ecological impact of our activities through sustainable practices and efficient resource management. By promoting a strong HSE culture through ongoing training, clear communication, and active employee participation, we ensure that safety, health, and environmental considerations are embedded in every aspect of our work.
- Our HSE management system is designed for continuous improvement and reflects our commitment to the principles of ISO 45001:2018 and ISO 14001:2015.
